ENGINES

32

Impulse System: FIG-5 (.92c) (D) [-6]
Warp System: LF-44 (6/9.5/9.7 MCU) (C) [-6]

AUX

78

Atmosphere Capable: No [0]
Cargo Units: 80 [0]
Life Support: Class 4 (E) [-8]
Operations System: Class 4(E) [-8]
Sensor System:
Class 5 (+5/+4/+3/+2/+1/F) [-5]
Separation System: No [0]
Shuttlebay: 2 aft [-4]
Shuttlecraft: 16 size worth
Tractor Beams: 1 av, 1 fv [-1]
Transporters:
4 standard, 4 emergency, 4 cargo [-12]

35

Maneuver Modifiers: +4C, -2H, +3T
Traits:
Ablative Armor [-5]
Intricate System (Propulsion x3) [+15]
Prototype (+1 Protection, +1 Threshold) [-4]

Mission

The Enterprise still has exploration as its primary mission. In times of war, its secondary mission profile takes the fore, that of battleship and fleet command and control.

0010-B

Features

The Enterprise features an additional Type XII phaser array, an additional Mk 95 DF torpedo launcher, and an advanced upgrade to the already formidable FSS-3 regenerative shield grid. This increased tactical power comes at a price, for the additional systems were tied directly to the warp core, making the Enterprise's propulsion systems that much more difficult to repair should they suffer damage.

510+

Background

The Sovereign-class was refitted and upgraded with the advent of the Dominion War, turning an already impressive ship into a truly formidable one. The upgrades were limited primarily to offensive capability, with additional phaser arrays and torpedo launchers added, and some initial upgrades planned for the ship's warp engines. These warp upgrades were eventually discarded, as the weapons upgrades alone proved to make the operation of the ship's engines significantly more complicated than the basic model of the class.
